MAIN STREET PROJECTS

The **Main Street Parking Lot** project began on Monday July 12th with the parking lot on the northwest corner of Main Street and Pine Street. The progress at that site has been significant. This lot will have 26 parking spaces with one spot designated for handicapped parking.

The existing entrance off of Pine Street has been eliminated and now there will be entry off of Main Street. .

The project continues with work beginning on the vacant lot in the 1000 block of Main Street. This lot will contain 9 additional parking spaces with 3 of those being designated as handicapped. Construction on both lots is expected to be completed within a month of the start date.

The Walnut Street and Main Street Resurfacing project is scheduled to begin on Monday, July 26th. A pre-construction meeting was held last week with Rooters American Maintenance out of Beckemeyer. This project will also be completed in a short period of time. The expected completion date is Friday, August 13th, making the length of the project just three weeks.

Tot Lot Update

The Tot Lot playground under the water tower on the corner of 12th Street and Zschokke Street has been closed since last fall. The area was used as a staging area for equipment used in the painting and restoration of the elevated water tower. Now the tower is painted and all the equipment has been removed and the Tot Lot has been completely renovated with new play surface and equipment. The new fence is expected to be installed very soon.
