AUGUST 26, 2011

Rodeo Champion

On Saturday, August 20, 2011, Luby Equipment of Fenton, Missouri sponsored a qualifying competition for the Case Triple Threat Rodeo. The Case Triple Threat Rodeo is partnering with local Habitat for Humanity chapters as a fund raiser. The competition involves skill, precision and timing. Man, Mind and Machine as "Case cowboys" navigate the N Series Loader/Backhoe, Skid Steer Loader and New F Series Wheel Loader in a series of obstacle courses.

The winner of the Luby Equipment Rodeo, and representing the City of Highland in Las Vegas in January is Street & Alley division operator, Jim Bugger.

Jim was first on the timed obstacle course on Saturday morning and had to watch all day as operators tried to top his time. For his efforts he was awarded a Case Triple Threat belt buckle and a \$500 gift card.

The final showdown? The North American Case Triple Threat Rodeo Championship to be held in Las Vegas in January 2012. Luby Equipment will be sending Jim to Las Vegas in January to compete against 59 others for the chance to win the grand prize of a new Dodge Ram pickup truck for himself, as well as a new Case Track Loader valued at over \$60,000 for the City.

Congratulations Jim on your win and good luck in Vegas!!

JULIE

More than just water and sewer lines can lie beneath the grass. Homeowner's now receive their electric and communication utilities via underground lines. To avoid damaging those lines Illinois state law requires you to call JULIE before any digging project, regardless of the project size or depth.

JULIE is a not-for-profit organization that works with homeowners and contractors to alert utility

companies of excavation plans. JULIE neither owns nor marks any underground facilities, that is the responsibility of the utility owner.

Now it is even easier to reach JULIE by simply dialing 811. This 3 digit number is easy to remember, but you still may reach JULIE using the toll free number 1-800-892-0123.

The homeowner or contractor doing the digging is required to contact JULIE with the locate request information 48 hours in advance. Be prepared to provide your name, address, a phone

number, the county and city or township, as well as type of digging you will be doing and your start date. To assist locators it is suggested that you mark your proposed excavation site with white paint or flags.

After the call, within two working days, a representative of each utility located within your dig site will mark their facilities. Each utility locator uses a different color paint or flag to mark their buried facilities.

811 Know what's below.
Call before you dig.
