## Changes at the WTP

Incoming Supervisor Mike Buss with retiring Supervisor Bob Wittenborn

This coming week will be the last week for the current supervisor of the Water Treatment Plant. On Friday, January 28th Bob Wittenborn will retire. Bob came to the city on December 22, 2003 from Elsberry, Missouri where he was employed by Alliance Water Resources.

In retirement Bob and his wife have plans to travel doing part-time mission

work and spending time with their 18 grandchildren. We wish Bob all the best in his retirement.

The position of Supervisor has been filled by Mike Buss of Sparta. Mike began on December 28th and has been working closely with Bob this past month to learn this plant. Mike has spent the past 30 years working for the City of Sparta. His previous

experience in surface water treatment is a real plus in his new position with the city.

Mike is married and has two children and a grandchild, Mike is currently commuting daily from Sparta, but plans on moving to Highland.

We believe Mike will be a welcomed addition to the Public Works Department. Welcome to Highland.
