Meet the New Guys

The retirements in June long time Water & Sewer Division operators, Paul Holtgrave and Steve Walter, has made way for two new hires in that department. There are currently six employees in the division. August of 2008 was the last time a new employee was added to the W&S Department. We all wish Travis and Darren good luck as they begin their new job.

Travis Tebbe began on Tuesday, July 5. Travis was formerly employed at Foppe Service in Breese, Illinois. Travis is married to Lore and they have one son. A resident of the city for the past eleven years, Travis has been a member of the Highland Fire Department since 2005

Lifelong Highland resident, Darren Apken, began his new job on Monday, July 11. Darren brings more than 10 years of water distribution experience to the job, having been the operator in charge for the Village of Marine prior to accepting this position. Darren is the father of one son.

MORE EXTREME HEAT NEXT WEEK

- } The average temperature for our area for July is 89.8, but twice in the past week the area was 100 degrees or more and we should expect the same next week.
- } Five of the record high temperatures for July came between July 12 and July 18 in 1954
- } The highest temperature ever for our area, 115 degrees, was recorded on July 14, 1954.
- } Please exercise caution during this these hot days.
