Admin. Assistant

## Iberg Road Update

In the past month Keller Construction has completed the earthwork required for both the north and south bridge cones. The project is now moving onto storm sewer installation. Weather pending, Trestle Road will be closed for part of day on Tuesday, November 12th so that the Keller can install culverts under the roadway. These culverts will help divert water to fill the new pond.

Photos taken from the south side of the RR bridge cone looking north (top) and to the east (bottom) at the new pond created when the earth used for the bridge was removed.
