Public Forum/Residents Requests

New Business:

1. Farmer's Market

Lucas shared information he has collected regarding Farmer's Markets. The intent is to start hosting Farmer's Markets on the Square in 2023. Lucas outlined the reasons why a one-day event would not be as successful as a season long event. The primary reason is consistency.

Therefore, the goal is to start in mid-May and continue through September and hosting it on Tuesdays from approximately 4:00PM – 8:00PM. Vendors would pay a weekly fee to set up their places of business; bringing all of the necessary tables, chairs, product, advertising, etc.

Kathryn suggested having "kids crafts" so that it can be family oriented and have such things as watermelon carving and Lucas even said that he found a few businesses that would donate seeds and have shoe planters made.
