Management's Discussion & Analysis

This section of the City of Highland's annual financial report presents discussion and analysis from City management regarding the City's financial performance during the fiscal year that ended on April 30, 2024 with comparative information for the fiscal year ended April 30, 2023.

FINANCIAL HIGHLIGHTS

- Total assets exceeded liabilities at the close of the fiscal year by approximately \$94.4 million (net position). Of this amount, the unrestricted amount of \$20.4 million may be used to meet the City's ongoing obligations to citizens and creditors.
- City-wide net position increased 7.8% during the fiscal year. Governmental activities increased 10.4% and a 4.5% increase occurred within enterprise activities.
- The City of Highland is compliant with the GASB 34 reporting model, which requires accounting for depreciation of fixed assets within governmental activities. Shown within the Statement of Net Position, the fixed assets year-end balance for fiscal year 2024 is \$96.9 million (net of depreciation). This is comprised of \$50 million for governmental activities plus \$46.9 million for business-type activities.
- Receipts of the traditional sales tax, shown within the "Intergovernmental" revenue line item, increased 5.8% during FY 2024.
- FY 2024 was the seventh full year of receipts from the 2006 Non-Home Rule Sales Tax Referendum. This 1% NHR sales tax was estimated to bring in an additional \$1.3 - \$1.5 million annually to the City for street projects. Receipts for the year equaled \$2.0 million. This revenue source is outperforming projections mainly because of the change in law after this tax was passed that started collecting sales tax on online purchases.
- FY 2024 was the fifth full year for the newly created Business Districts generating for FY 2024 \$1.5 million for eligible projects within these Districts. In FY 2024 this revenue saw an increase because of a tax rate increase that began July 2023.
- Building permit activity was better than estimated and the growth rate of the City's equalized assessed value (EAV, and 7.8% increase), which is an important component in property tax calculations, also continues to improve as developments continue and improvements are made to existing properties. Total EAV is seeing an increasing threat from unfavorable Board of Revenue decisions concerning our largest commercial properties which then places a heavier burden on our residential taxpayers.

Management's Discussion & Analysis

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements.

- The Statement of Net Position and the Statement of Activities provide information about the activities of the City as a whole and present a longer-term view of the City's finances.
- For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most financially significant funds.
- The Enterprise fund statements display the results of the utility funds for each fiscal year.
- The remaining statements provide financial information about activities for which the City acts solely as a trustee or agent for the benefit of those outside of the government.

Reporting the City as a Whole –

The Statement of Net Position and the Statement of Activities

One of the most important questions asked about the City's finances is "Is the City as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the City as a whole and about its activities in a way that helps answer this question. These statements include *all* assets and liabilities using the *accrual basis of accounting*, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

**Reporting the City's Most Significant Funds -
Fund Financial Statements**

Some funds are required to be established by State law and bond covenants. However, the City Council establishes many other funds to help it control and manage money for particular purposes (such as the bonds for Infrastructure Improvements) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money.

The City's three types of funds use different accounting approaches:

- *Governmental Funds* – Most of the City's basic services are included in governmental funds, which focus on (1) how *cash and other financial assets* that can readily be converted to cash flow into and out of these funds and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in the reconciliations within exhibits #4 and #6 of the "Basic Financial Statements" section.

CITY OF HIGHLAND, ILLINOIS
April 30, 2024
Management's Discussion & Analysis

- *Enterprise Funds* – Services for which the City charges customers for the full cost of the services it provides are generally reported in enterprise funds. These business-type activities, like the government-wide statements, provide both long- and short-term financial information. Business-type activities are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities.
- *Fiduciary Funds* – The City has fiduciary responsibility for other assets that – because of trust arrangements – can be used only for the trust beneficiaries. The City is responsible for ensuring the assets reported in these funds are used for their intended purposes. All of the City's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the City's government-wide financial statements because the City cannot use these assets to finance its operations.

In the supplemental information section, the City has provided detailed schedules of revenues, expenditures, and changes in fund balances for the required major funds. The capital projects funds that have been presented in prior years are not required and therefore have not been included. The City has also included information on its various pension plans in accordance with GASB statutes. In addition, detailed historical data can be found regarding tax levies, building permits, and property values. Information regarding miscellaneous statistics about the City of Highland are also included. The reports are intended to provide the user with information beyond the realm of the traditional auditing requirements.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Director of Finance, City of Highland, PO Box 218, Highland, IL 62249.

FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

The following table provides a comparison between the activities for FY 2024 and the activities for FY 2023 under the GASB Statement No. 34 model. The city-wide total for revenues increased \$1.7 million and expenditures decreased \$0.2 million compared to the previous fiscal year. Governmental type revenues exceeded expenditures for the current and prior fiscal year. Business Type Revenues also exceeded expenditures for the current year as well. The surplus is utilized by the City of Highland to meet the City's fiscal policy in relation to reserves for operations, maintenance, and capital projects and any deficits are covered by surplus created in prior years.

Governmental Activities

Governmental Activities include all funds except Business-Type Activities and the Police Pension Fiduciary Fund. Examples include the following: General Fund (which includes the Police Dept, Fire Dept, Building and Zoning, General Administration, and PW Admin / Street Dept. among others), Ambulance Fund, Parks and Recreation, and the various Library Funds.

General Governmental Revenues FY 2024

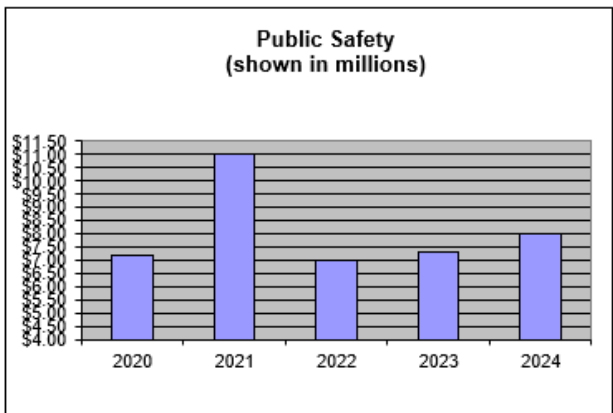

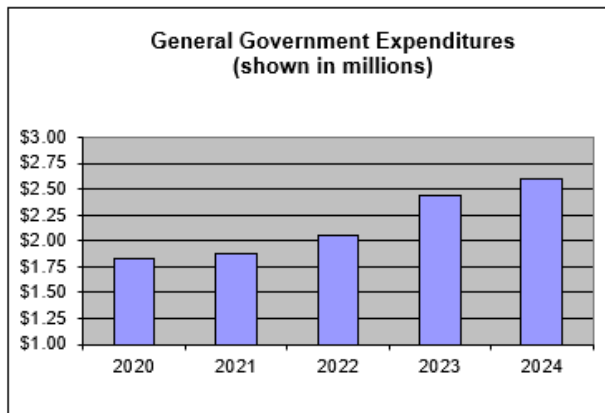

Intergovernmental revenues include revenues due to the City of Highland that pass through the State of Illinois. These include, but are not limited to, sales tax, income tax, and the simplified telecommunications tax. Corporate replacement tax, motor fuel tax, as well as fines and forfeitures are included within the “other” category. The “miscellaneous” category includes interest income. “Charges for Services” includes billings from the City’s Ambulance service and user fees from Parks & Recreation.

CITY OF HIGHLAND, ILLINOIS
April 30, 2024
Management's Discussion & Analysis

Expenditures of Governmental Activities are spread among a wide variety of functions. Among these are public safety functions of police, fire, and EMS. Also included are the activities of highways and streets as well as culture and recreation (parks & recreation / library). These areas are funded with the above mentioned revenues such as property taxes and intergovernmental revenues. The charts included on this page depict the governmental activities expense amounts for the various functions. The increase in public safety is due to the debt payment of the new Public Safety Facility and the downtown Fire Station renovations. Highways and Streets continues to grow as the City continues to make investment in our City streets.

CITY OF HIGHLAND, ILLINOIS

Management's Discussion & Analysis

Business-Type Activities

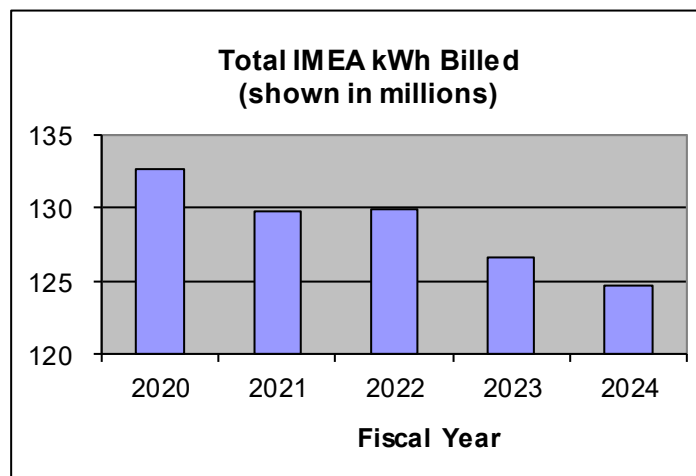

Business-type activities include revenues and expenditures related to the Electric, Water, Sewer, and Solid Waste funds. Business-type activities do not receive property or intergovernmental taxes. Each enterprise fund operates as an independent entity, relying solely on user fees for operations. The water and sewer funds had incremental rate increases over the past few years. The most recent electrical rate increase was effective in April of 2023 and fiber rate increases will continue to be evaluated and implemented as needed. The electric fund also includes revenues billed and expenditures for installation of the new fiber infrastructure and operations.

Operational revenues for the electric (including fiber) increased by 2.0% while the operating expenses decreased by 3.0%. These costs include depreciation which is not a budgetary item. The revenue over expenditures resulted in a positive operating income of \$973,315. The reason for the positive income is due to the rate increase and staff's ability to control operating expenditures.

The total kilowatt hours billed decreased during Fiscal year 2024. The cost per kilowatt hour will again be used to determine if additional rate increases beyond the power cost adjustment are warranted in the upcoming year.

CITY OF HIGHLAND, ILLINOIS

Management's Discussion & Analysis

STATUS OF CITY RESERVES

The governmental funds reported a *combined* fund balance of \$26.4 million. The City implemented GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, in a prior fiscal year. This created five new classifications for fund balance reporting including non-spendable, restricted, committed, assigned and unassigned. The classifications are important in determining the order of use for fund balances remaining at year end.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of FY 2024, the City had \$97.0 million (net of depreciation) invested in a range of capital assets that include equipment, building and structures, and infrastructure. Infrastructure is valued based on the composite cost. The straight-line depreciation method is used, with a salvage value always being zero. More detailed information about the City's capital assets can be found in Note 5 of the Notes to the Financial Statements.

The City of Highland transfers amounts between funds for the main purpose of saving for future capital expenditures. Each fund transfers excess funds at year-end to the City Property Replacement Fund where it remains, until needed, to be transferred back for eligible capital purchases. Transfers also exist among funds in order to allocate the general administrative expenses among the appropriate fund. For more information on these interfund transfers see Note 9 in the Notes to the Financial Statements.

Debt Administration

The City of Highland only recently issued general obligation debt counting against its legal debt limit. Debt repayment is accomplished primarily with sales tax revenue and utility sales. The City of Highland's legal debt limit of \$11.3 million is available for general obligation debts. Total City debt per capita is approximately \$3,223. More detailed information about the City's debt can be located in Note 6 of the Notes to Financial Statements.

CURRENT EVENTS AND NEXT YEAR'S BUDGET

The City of Highland has taken an aggressive approach towards managing the growth of the community as evidenced by the 7.8% growth in EAV between Levy years 2022 and 2023. The following is a brief description of some of the actions taken in FY '24, with a brief look ahead into FY '25.

The City operations have remained constant due mainly to solid reserves policies and our diverse revenue streams. Even with changes in revenue collections, both positive and negative, we have weathered the financial impacts brought upon us from inflationary pressures on operations while being able to maintain a solid financial position. Our overall revenues have returned to pre pandemic levels with minor growth. We anticipate governmental revenues to remain relatively stagnant relative to inflation in the upcoming year. Inflation impacts on city activities, EAV growth and substantially rising health insurance costs are the largest threats to city finances and operations that we foresee. Staff continue to adjust projects, purchases and operations as needed in order to continue to provide the level of services our citizens have come to expect from the City of Highland.

The Fiber-to-the-Premise (FTTP) project continues to gain customers in the available service areas. FTTP continues to provide incredible value to our citizens in comparison to rates paid by those who do not have access to our service and are subject to monopoly pricing from private providers. The Public Works Department has continued with sewer trunk main and water main improvements which have proven valuable with reduced claims related to sewer backups, fewer

CITY OF HIGHLAND, ILLINOIS
April 30, 2024
Management's Discussion & Analysis

water main breaks, as well as continued improvements to streets and alley ways. Construction improvements to City Hall are nearly complete and we are grateful to be back in our new and improved home. The Parks and Recreation department continues to improve their facilities and parks with new playground equipment and completing deferred maintenance projects. Joint projects between the parks department and the water department for environmental and sustainability issues with Silver Lake continue and are necessary infrastructure projects for the long-term health of our water supply. Electrical system upgrades and maintenance operations are still being done to sustain the electrical systems reliability including aggressive vegetation management to reduce animal/varmint intrusion, and the upgrade and expanded use of the SCADA system.

Probably the biggest change in operations for FY 24 is in the EMS department. Towards the end of FY 23, the fire protection districts we have severed for several decades made the decision to go on their own for EMS services. FY 24 will see a transition in our EMS department as we adjust to just serve the City of Highland. Financial pressures in EMS due primarily to federal funding of Medicare and Medicaid will be an ongoing concern as we move forward. Changes in State laws may open an opportunity for the City to partner with surrounding communities in a consolidated district. This will be an issue that will continue to be monitored by staff with the primary objective to be preserving the highest possible service for our citizens.

Steps have been taken to improve daily operations and help the City become more efficient. The City uses various performance management tools for budgeting and trend analysis. The implementation of the Tyler Technologies ERP Municipal Management software platform which is intended and designed to assist staff in identifying and using the performance management tools and interpreting the data available to use for better decision making. We have implemented the first module (financial) and are working through additional modules now, the process of implementation will likely take another 2-3 years to complete. We have also taken advantage of attrition among staff and supplementing with some contracted services to mitigate operational increases brought on by inflation across the city without impacting city services. While this is not a long-term solution, it has put the City in a solid position to weather the stagnating revenues relative to inflation we are seeing in our governmental revenues.

As of April 2024, the City's Equalized Assessed Value increased 7.82% to a total of \$249.3 million. The EAV is used in conjunction with the 2023 Property Tax Levy for the collection of property taxes during FY 2024-2025. The City of Highland's (including the Library portion) property tax rate for 2023 represents 24% of the total property tax rate in Helvetia Township (Saline Township is nearly identical). The City's portion of the total property tax rate for Highland residents has

remained relatively the same for the past few years. The City strives to maintain its property tax rate at the lowest amount possible while providing the highest quality of service.

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Highland, Illinois, as of and for the year ended April 30, 2024, and the related notes to the financial statements, which collectively comprise the City of Highland, Illinois' basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Highland, Illinois, as of April 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Highland, Illinois, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Highland, Illinois' ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Highland, Illinois' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Highland, Illinois' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as referred to in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the statistical section, as referred to in the table of contents, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 20, 2025, on our consideration of the City of Highland, Illinois' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Highland, Illinois' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Highland, Illinois' internal control over financial reporting and compliance.

Prior Period Partial Comparative Information

The prior year partial comparative information has been derived from the City of Highland's 2023 financial statements, and in our report dated January 19, 2024, we expressed an unmodified opinion on the respective financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the City Council
City of Highland, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Highland, Illinois as of and for the year ended April 30, 2024, and the related notes to the financial statements, which collectively comprise the City of Highland, Illinois's basic financial statements and have issued our report thereon dated January 20, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Highland, Illinois's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Highland, Illinois's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Highland, Illinois's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2024-1 and 2024-2 that we consider to be significant deficiencies.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Highland's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings as item 2024-3.

City of Highland, Illinois's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the City of Highland, Illinois's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The City of Highland, Illinois's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CITY OF HIGHLAND, ILLINOIS
RECONCILIATIONS OF THE STATEMENTS OF REVENUES, EXPENDITURES AND
CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENTS OF ACTIVITIES
FOR THE YEAR ENDED APRIL 30, 2024
WITH COMPARATIVE AMOUNTS FOR APRIL 30, 2023

	2024	2023
Net change in fund balances - total governmental funds	\$ 3,688,950	\$ 4,211,373
Amounts reported for governmental activities in the statements of activities are different because:		
Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. This is the amount by which capital outlay exceeded (subceeded) depreciation expense.	2,318,165	(914,496)
Governmental funds report lease payments as expenditures while governmental activities report amortization expense on Right of Use Assets and interest expense on the lease liability to allocate those expenditures over the term of the lease. This is the amount by which the amortization and interest expense exceeds the lease payments in the current period.	(33,182)	(26,598)
In the governmental activities, debt premiums are amortized over the life of the debt while the governmental funds report the debt premiums as expenditures. This is the amount of debt premium amortization.	42,217	42,217
In the statement of activities, only the gain on the disposal of the capital assets is reported, whereas, in the governmental funds, the proceeds from the sale increase the financial resources. Thus, the change in net position differs from the change in fund balance by the net book value of the capital assets disposed.	(31,542)	(7,012)
Proceeds from new notes payable and debt certificates payable are recorded as revenues in the governmental funds but increase liabilities in the statement of net position.	(2,035,000)	(194,465)
Proceeds from new leases payable are recorded as revenues in the governmental funds but increase liabilities in the statement of net position.	(393,455)	
Some expenses, including accrued interest, OPEB, and compensated absences, reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	287,203	10,476
Governmental funds report defined benefit pension contributions as expenditures. However in the Statement of Activities, the cost of defined benefit pension benefits earned net of employee contributions is reported as pension income (expense).	330,247	(421,285)
Repayment of principal is an expenditure in the governmental funds but reduces the liability in the statement of net position.	892,945	927,550
Change in net position of governmental activities	<u>\$ 5,066,548</u>	<u>\$ 3,627,760</u>

CITY OF HIGHLAND, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED APRIL 30, 2024

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES

The City of Highland, Illinois, was incorporated April 4, 1884. The City is a non-home rule unit and operates under a managerial council form of government. Under this form of government, the City council is legislative, except that it is empowered to approve all expenses and liabilities, and the manager is the administrative and executive head of government.

The accounting policies of the City of Highland conform to generally accepted accounting principles as applicable to governments. The following is a summary of the significant policies:

(A) PRINCIPLES USED TO DETERMINE SCOPE OF ENTITY

The City's reporting entity includes the City's governing board and all related organizations for which the City exercises significant influence.

The City has developed criteria to determine whether outside agencies with activities which benefit the citizens of the City should be included within its financial reporting entity. The criteria includes, but is not limited to, whether the City exercises significant influence (which includes financial benefit or burden, appoints a voting majority, ability to significantly impose its will, and fiscal independence).

The City has determined that a component unit exists as of April 30, 2013. The Industrial Development Commission (IDC) was established by the City Council pursuant to the authority conferred by Section 11-74-4(8) of the Industrial Project Revenue Act (65 ILCS 5/11-74-4(8)) by Ordinance #2365 adopted and approved on July 6, 2009. The IDC meets monthly and makes recommendations about economic development decisions to the City Council. The IDC is a discretely presented component unit.

(B) BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

The accounting policies of the City of Highland, Illinois, conform to accounting policies generally accepted in the United States of America as applicable to governmental units. The accepted standard setting body for establishing governmental accounting and financial reporting principles is the Governmental Accounting Standards Board (GASB).

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which is segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

The City's funds are grouped into three broad fund categories and six generic fund types for financial statement presentation purposes. Governmental funds include the general, special revenue, debt service and capital projects funds. Proprietary funds include enterprise funds. The City also has one fiduciary custodial fund.

CITY OF HIGHLAND, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED APRIL 30, 2024

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) GOVERNMENT-WIDE FINANCIAL STATEMENTS

The statement of net position and the statement of activities display information about the City and the primary government, as a whole, excluding fiduciary activities such as employee pension plans. These statements distinguish between activities that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting generally including the reclassification or elimination of internal activity (between or within funds). This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Therefore, governmental fund financial statements include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the governmental fund statements.

The government-wide statement of activities presents a comparison between expenses, both direct and indirect, and program revenues for each segment of the business-type activities of the City and for each governmental program. Direct expenses are those that are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the City.

Net position should be reported as restricted when constraints placed on the net position's use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws and regulations of other governments, imposed by law through constitutional provisions or enabling legislation. The net position restricted for other purposes results from special revenue funds and the restrictions on its net position use.

(ii) FUND FINANCIAL STATEMENTS

Fund financial statements report detailed information about the City. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

The City reports the following major governmental funds:

General Fund - The government's primary operating fund. This fund is used to account for and report all financial resources not accounted for or reported in another fund.

Special Revenue - Ambulance - The fund that accounts for proceeds of specific revenue sources (other than those for major capital projects) that are restricted or committed to expenditure for the specified purposes of providing ambulance services.

FOR THE YEAR ENDED APRIL 30, 2024

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Projects - City Property Replacement - This fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlay, including the acquisition or construction of capital facilities (other than those financed by proprietary funds and trust funds).

Capital Projects - Business District A - This fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for economic development, including the acquisition or construction of capital facilities (other than those financed by proprietary funds and trust funds).

The City reports the following major proprietary funds:

Light and Power Fund - This fund operates the electrical distribution system and includes the fiber-optic system that provides high-speed internet, television, and telephone services to customers in Highland.

Water Fund - This fund operates the water distribution system.

Sewer Fund - This fund operates the sewer treatment plant, sewage pumping stations, and collection systems.

Solid Waste Fund - This fund operates the collection of solid waste pickup.

(iii) GOVERNMENTAL FUNDS

All governmental funds are accounted for using the modified accrual basis of accounting and the current financial resources measurement focus. Under this basis revenues are recognized in the accounting period in which they become measurable and available. The length of time to define available is 60 days or less. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

(a) REVENUE RECOGNITION

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available. This concept includes investment earnings, fines and forfeitures, and state-levied locally shared taxes (including motor vehicle fees).

Property taxes and special assessments (in the debt service funds), though measurable, are not available soon enough in the subsequent year to finance current period obligations. Therefore, property tax and special assessment receivables are recorded and offset with a deferred inflow of resources until they become available.

Other revenues, including licenses and permits, certain charges for services, and miscellaneous revenues, are recorded as revenue when received in cash because they are generally not measurable until actually received.

CITY OF HIGHLAND, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED APRIL 30, 2024

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) EXPENDITURE RECOGNITION

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Most expenditures are measurable and are recorded when the related fund liability is incurred. However, principal and interest on general long-term debt, which has not matured, is recognized when paid. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds.

(iv) PROPRIETARY FUNDS

All proprietary funds are accounted for using the accrual basis of accounting. These funds account for operations that are primarily financed by user charges. They report charges for services and connection fees as operating revenues, and items such as interest income, grants, and other miscellaneous items as non-operating revenues. The economic resource focus determines costs as a means of maintaining capital investment and management control. Their revenues are recognized when they are earned and their expenses are recognized when they are incurred. Allocations of costs, such as depreciation, are recorded in proprietary funds, and unbilled utility receivables are recorded at each year end.

(v) FIDUCIARY FUNDS

The City currently has one fiduciary fund. The Policemen's Pension Trust Fund is used to account for pension assets held by the City in a trustee capacity. This fund is accounted for and reported in a manner similar to proprietary funds since capital maintenance is critical.

(C) VACATION AND SICK LEAVE

Vacation leave is accrued for full time employees of the City at the rate of one average work week per year upon completion of the first year of continuous service. These employees are granted two average work weeks per year following completion of the second year of continuous service through the sixth year. For the seventh through the eleventh year, three average work weeks are earned per year. From the twelfth through the twentieth year, four average work weeks are earned per year and five average work weeks per year are earned following the twentieth year and thereafter.

Sick leave is accrued for full time City employees at a rate of 13 days a year. Most employees can accumulate up to 30 days of vested sick pay and an additional 60 days of non-vested sick pay. Employees in the Sergeants Union can accumulate up to 90 days of vested sick pay. Employees in the Patrol Officer Union can accumulate up to 45 days of vested sick pay and an additional 45 days of non-vested sick pay. Employees in the IAFF Union can accumulate up to 30 days of vested sick pay and an additional 60 days of non-vested sick pay. Employees in the IBEW and IOUE Unions can accumulate up to 90 days of vested sick pay and an additional 60 days of non-vested sick pay. Terminated employees are compensated for all vested sick days. The City does not accrue the additional non-vested sick days totaling \$408,869. However, for the accrued vacation and vested sick days, the City is liable in the approximate amount of \$731,593 for payments to qualified employees of the governmental activities and \$321,998 for payments to qualified employees of the business-type activities as of April 30, 2024.

CITY OF HIGHLAND, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED APRIL 30, 2024

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(D) CASH AND INVESTMENTS

The City maintains an investment pool that is available for use by all funds, except those of certain special revenue and agency funds. The City maintains a separate accounting of each fund's balance in the pool. Additionally, the City participates in the Illinois Fund and Illinois Police Officers Pension Investment Fund. Investment income earned on pooled investments is distributed to the appropriate funds based on the average daily balance of the investments in each fund.

Investments are stated at fair value. Fair value for investments is determined by closing market prices at year-end as reported by the investment custodian.

All cash and investments of the proprietary funds are considered highly liquid, as these funds participate in the City's investment pool. Consequently, these are considered to be cash and cash equivalents for cash flow purposes.

Restricted cash on the financial statements represents cash for customer deposits, fiber bonds, sewer reserves, and TIF bonds.

(E) GOVERNMENTAL RECEIVABLES

Long-term receivables due to governmental funds are reported on the balance sheets, in spite of their spending measurement focus. However, special reporting treatments are used to indicate that they should not be considered "available spendable resources", since they do not represent net current assets. Recognition of governmental fund type revenues represented by noncurrent receivables is deferred until they become current receivables. The City has determined that an allowance for uncollectible receivables is not needed based on prior years' collections.

(F) ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

(G) DEBT PREMIUMS, DISCOUNTS, AND ISSUANCE COSTS

On the government-wide statement of net position and the proprietary fund statement of net position, debt premiums and discounts are shown separately from debt payable, and debt issuance costs are recognized as an outflow of resources in the period incurred. In addition, unamortized debt premiums and discounts are deferred and amortized over the life of the debt using the straight-line method.

At the government fund reporting level, debt premiums and discounts are reported as inflows or outflows of resources in the period incurred.

CITY OF HIGHLAND, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED APRIL 30, 2024

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(H) NET POSITION

Net position is calculated by taking assets plus deferred outflows of resources less liabilities and deferred inflows of resources. The portion of net position that is titled “Invested in Capital Assets, Net of Related Debt” is capital assets less accumulated depreciation and outstanding debt related to the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are legal limitations imposed on its use by City legislation or external restrictions by other governments, creditors, or grantors. The City’s policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

(I) DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the statement of financial position and balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period, and therefore, will not be recognized as an outflow of resources until that time. The government-wide statements report deferred outflows of resources related to the pension and OPEB plans. This deferred outflow represents the combination of changes in assumptions and the difference between projected and actual earnings on pension plan investments to be recognized in a future period.

In addition to liabilities, the statement of financial position and balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period, and therefore, will not be recognized as an inflow of resources (revenue) until that time. The government-wide statements report unavailable revenues from property taxes and amounts related to pension and OPEB plans. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

(J) CAPITAL ASSETS AND DEPRECIATION

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. General capital assets are long-lived assets of the City as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized in government-wide statements. Infrastructure such as streets, traffic signals and signs are capitalized in the government-wide statements. The valuation basis for general capital assets is historical cost, or where historical cost is not available, estimated historical cost based on replacement cost. Donated fixed assets are reported at their fair value as of the date received. The City maintains a capitalization threshold of \$15,000.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation basis for proprietary fund capital assets is the same as those used for the general capital assets.

Depreciation of capital assets is computed and recorded by the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings - 20 to 50 years; improvements/infrastructure - 5 to 50 years; equipment - 3 to 25 years.

FOR THE YEAR ENDED APRIL 30, 2024

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(K) GOVERNMENTAL FUND BALANCES

The City elected to implement GASB No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, in the fiscal year ended April 30, 2012. In the fund financial statements, governmental funds report the following classifications of fund balance:

Nonspendable – Amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – Amounts with constraints placed on the use of resources by creditors, grantors, contributors, or laws or regulations of other governments; or through constitutional provisions or enabling legislation.

Committed – Amounts that can only be used for specific purposes pursuant to constraints imposed by the City Council through an ordinance or resolution. The City had no committed fund balances on April 30, 2024.

Assigned – Amounts that are constrained by an intent to be used for specific purposes but are neither restricted nor committed. The City Council has designated the City Manager and Finance Director the authority to make assignments.

Unassigned – All amounts not included in other spendable classifications.

For the classification of fund balance, the City requires restricted amounts to be spent first when both restricted and unrestricted fund balances are available unless there are legal documents or contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the City would first use committed fund balances, followed by assigned fund balances and then unassigned fund balances when more than one classification for unrestricted fund balances are available.

(L) LEASES

The City records leases based on guidance under GASB Statement No. 87, Leases (GASB 87). GASB 87 requires the recognition of certain lease assets and liabilities for leases that previously were classified as operating leases. It established a single model for lease accounting based on the foundational principals that leases are financings of the right to use an underlying asset. Under GASB 87, a lessee is required to recognize a lease liability and an intangible right-of-use-asset.

(M) COMPARATIVE DATA

Comparative data for the prior year has been presented in the accompanying financial statements in order to provide an understanding of changes in the City's financial position and operations. However, comparative notes to the financial statements have not been presented since their inclusion would make the notes to the financial statements unduly complex and difficult to read.

(N) NEW ACCOUNTING PRONOUNCEMENT

Effective May 1, 2023, the City adopted the provisions of GASB Statement No. 96, Subscription-Based Information Technology Arrangements. The objective of this Statement is to provide guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users. This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset-an intangible asset-and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. The implementation of GASB Statement No. 96 had no material impact on the financial statements of the City for the year ended April 30, 2024. As such, no subscription assets or liabilities have been recorded in the City's financial statements.

(O) FUTURE ACCOUNTING PRONOUNCEMENTS

GASB Statement No. 100, *Accounting Changes and Error Corrections*, will be effective for fiscal year ending April 30, 2025. This standard aims to improve consistency and clarity in reporting accounting changes and error corrections. It also establishes disclosure requirements for financial statement notes. The City is currently evaluating the impact, if any, of this adoption.

GASB Statement No. 101, *Compensated Absences*, will be effective for fiscal year ending April 30, 2025. This standard provides a unified model for accounting for and reporting on compensated absences, with a purpose to address and update the recognition and measurement guidance of compensated absences while refining the related disclosure requirements. The City is currently evaluating the impact, if any, of this adoption.

NOTE 1. CASH AND INVESTMENTS

Cash and investments as of April 30, 2024 including fiduciary funds, are classified in the accompanying financial statements as follows:

	Primary Government	Component Unit
Total Cash	\$ 15,843,645	\$ 27,520
Illinois Funds	13,247,017	
Total Investments	22,528,481	25,182
Total	<u>\$ 51,619,143</u>	<u>\$ 52,702</u>

Cash includes \$1,000 of cash on-hand and \$15,842,645 of deposits with financial institutions for the primary government and \$27,520 deposited in a financial institution for the component unit.

NOTE 2. CASH AND INVESTMENTS (CONTINUED)

The City may invest in any type of security allowed by Illinois Law (Public Funds Investment Act of the State of Illinois: 30 ILCS 235/1 et. Seq. as amended). The summary of the allowable instruments are: Passbook Savings Account; NOW, Super NOW, and Money Market Accounts; Commercial Paper – issuer must be a U.S. corporation with more than \$500,000,000 in assets, rating must be within 3 highest qualifications by 2 standard rating services, must mature within 180 days of purchase, and such purchase cannot exceed 10% of the corporation's outstanding obligations, State treasurer's investment pool; Money Market Mutual Funds – registered under the Investment Company Act of 1940, provided the portfolio is limited to bonds, notes, certificates, treasury bills, or other securities which are guaranteed by the federal government as to principal or interest; Repurchase Agreement – collateralized by full faith in credit U.S. Treasury securities; Certificates of deposit and time deposits, constituting direct obligations of any bank as defined by the Illinois Banking Act and only those insured by the FDIC, legally issuable by savings and loan associates incorporated under the laws of the State of Illinois or any other state or under the laws of the United States and only in those savings and loan associations insured by SAIF, bonds, notes, certificates of indebtedness, treasury bills or other securities which are guaranteed by the full faith and credit of the United States of America as to principal and interest, obligations of United States government agencies which are guaranteed by the full faith and credit of the United States government, short-term discount obligations of the Federal National Mortgage Association, insured account of credit unions whose principal office is in Illinois, various tax-exempt securities, and Illinois liquid assets.

The City's Police Pension Fund is regulated by the state of Illinois. The City is not authorized to invest in securities individually with Policemen's Pension Funds, as all investments are controlled through their respective pension investment funds, managed by the state of Illinois.

When permitted by law, the City will pool cash from several different funds that are accounted for in the City's annual financial report to maximize investment earnings. Investment income will be allocated to the various funds based on their respective participation and in accordance with generally accepted accounting principles.

The primary objectives, in priority order, of investment activity shall be safety, liquidity, and yield. Investments shall be made with judgment and care, under circumstances then prevailing, with persons of prudence, discretion, and intelligence who exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived.

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with the proper execution of the investment program, or which could impair their ability to make impartial investment decisions. City officials and employees shall disclose to the City any material financial interest in financial institutions that conduct business with the City, and they shall further disclose any large personal financial or investment positions that could be related to the performance of the City's portfolio. The City Treasurer, financial officers and others employed in a similar capacity shall refrain from undertaking personal investment transactions with the same individual with whom business is conducted on behalf of their entity.

Authority to manage the investment program is granted to the Director of Finance and derived from the following: 65 ILCS 5/3.1-35-50 and the City of Highland Code by Resolution No. 99-12-1304.

CITY OF HIGHLAND, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED APRIL 30, 2024

NOTE 2. CASH AND INVESTMENTS (CONTINUED)

Third party safekeeping is required for all collateral and for all securities. Safekeeping will be documented by an approved written agreement. This may be in the form of a safekeeping agreement, trust agreement, escrow agreement, or custody agreement.

Any financial institution selected by the City shall provide normal banking services, including, but not limited to: checking accounts, wire transfers, purchase and sale of United States Treasury securities, and safekeeping services.

The City will not maintain depository accounts in any financial institution that is not a member of the FDIC or SAIF system. In addition, the City will not maintain depository accounts in any institution not willing to or capable of posting required collateral for funds in excess of FDIC or SAIF insurable limits.

Fees for banking services shall be mutually agreed to by an authorized representative of the depository bank and the Director of Finance in consultation with the City Manager and shall not be agreed to for any period exceeding three (3) years. Fees for services shall be substantiated by a monthly account analysis and shall be reimbursed by means of compensating balances.

All financial institutions acting as a depository for the City must enter into a "Depository Agreement". All financial institutions and brokers/dealers who desire to become qualified bidders for investment transactions must supply the following upon request by the Director of Finance or an agent of the Director of Finance: audited financial statements, proof of National Association of Securities Dealers (NASD) certification, proof of state registration, completed broker/dealer questionnaire, and certification of having read the City's investment policy.

Investments are measured at fair value on a recurring basis. Recurring fair value measurements are those that GASB Statements require or permit in the statement of net position at the end of each reporting period. Fair value measurements are categorized based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The following table presents the fair value hierarchy for the balances of the investments of the City's Governmental Funds measured at fair value on a recurring basis as of April 30, 2024:

<u>Investment Type</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Certificates of Deposit - Negotiable	\$ 2,477,833			\$ 2,477,833
Mutual Funds	1,662,221			1,662,221
	<u>\$ 4,140,054</u>	<u>\$ 0</u>	<u>\$ 0</u>	<u>\$ 4,140,054</u>

There is no fair value hierarchy for the Policemen's Pension as the City's share of the state-ran pension funds are measured at net asset value and are not classified within the fair value hierarchy.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The assets measured at fair value for the Governmental Funds are valued at the closing price reported on the active market on which the individual securities are traded.

FOR THE YEAR ENDED APRIL 30, 2024

NOTE 2. CASH AND INVESTMENTS (CONTINUED)

(A) INTEREST RATE RISK

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, an investment with a longer maturity date will have a greater sensitivity of its fair value to changes in market interest rates. One of the ways the City manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flow from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the City's investments to market rate fluctuations is provided in the following table. As of April 30, 2024, the City, including fiduciary funds, had the following investments and maturities:

Investment Type	Fair Value	Investment Maturities (in Months)			
		12 Months or Less	13-36 Months	37-60 Months	> 60 Months
Illinois Police Officers' Pension Investment Fund	\$ 14,526,253	\$ 14,526,253			
Certificates of Deposit -Negotiable	2,477,833	892,544	\$ 389,562	\$ 1,195,727	
Certificates of Deposit -Non-Negotiable	3,586,566	1,517,991	448,000	1,620,575	
Short Term Cash Equivalent	275,609	275,609			
Mutual Funds	1,662,221	1,662,221			
Total	<u>\$ 22,528,482</u>	<u>\$ 18,874,618</u>	<u>\$ 837,562</u>	<u>\$ 2,816,302</u>	<u>\$ -</u>

(B) CREDIT RISK

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The City's state investment pool has earned Fitch's rating (AAAmmf). The Policemen's Pension did not hold any investments that were required to be measured for credit risk.

(C) CUSTODIAL CREDIT RISK

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. All deposits are carried at cost plus accrued interest.

The City's balance in the state investment pool is fully collateralized. The City maintains a separate investment account representing a proportionate share of the pool assets and respective collateral; therefore, no collateral is identified with each individual participant's account. As of April 30, 2024, the balance in the City's state investment pool was \$13,247,017.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED APRIL 30, 2024

NOTE 2. CASH AND INVESTMENTS (CONTINUED)

The City's cash deposits, including the fiduciary fund, at April 30, 2024 consisted of the following:

<u>Depository Account</u>	<u>Primary Government Bank Balance</u>	<u>Component Unit Bank Balance</u>
Insured	\$ 19,759,518	\$ 27,520
Collateralized:		
Held by pledging bank's trust department in the City's name	16,038,717	
Total Deposits	<u>\$ 35,798,235</u>	<u>\$ 27,520</u>

(D) CONCENTRATIONS OF CREDIT RISK

The City's investment policy limits the amount of funds deposited and/or invested in a financial institution. Deposits/investments shall not exceed 65% of a capital stock and surplus of such institution unless collateral security has been pledged, in which case the amount of such deposits and/or investments shall not exceed 75%.

There are no investments in any one financial institution or issuer that represent 5% or more of the total City investments.

NOTE 3. RISK MANAGEMENT

The City of Highland is exposed to risks of loss from normal items typically applicable to all municipalities. These include liability, worker's injury, property damage, and other risks that are too numerous to mention. To reduce the City's risk of loss from damages and claims, the City has purchased commercial insurance from the Illinois Municipal League, which provides insurance coverage for property and liability claims for over 600 Illinois municipalities. Settlement claims have not exceeded insurance coverage for each of the past three fiscal years.

NOTE 4. PROPERTY TAXES

The City's property tax is levied each year on all taxable real property located in the City on or before the last Tuesday in December. The 2023 levy was passed by the Council on December 18, 2023. Property taxes attach as an enforceable lien on property as of January 1, and are payable in four installments for 2024: July 3, September 3, October 3, and December 3. The County has not mailed tax bills as of April 30, 2024. The City receives significant distributions of tax receipts approximately one month after the bills are mailed by the County. In conjunction with NCGA Interpretation #3, revenue is accrued in the year of the levy to the extent that it is due to be paid by the taxpayer by April 30, 2024 and is expected to be collected soon enough after April 30, 2024 to be used to pay liabilities by June 30, 2024 (60 days or less) and has been budgeted for the current year.

The City has established two tax increment financing (TIF) districts to encourage development within the redevelopment project areas and to enhance the value of those properties. In connection with the agreements of the redevelopment project areas, the real estate taxes, which relate to the incremental increase in property values within the redevelopment project areas, are paid directly to the TIF districts for investing in redevelopment projects within the TIF districts.

Default Provisions

The City's GO debt certificates from direct borrowings related to governmental activities of \$9,210,000 contain a provision that in the event of a default, the Seller or Certificate holder may pursue any available remedy by suit at law or equity to enforce the payment of all amounts due or to become due. The City's outstanding notes from direct borrowings related to governmental activities of \$157,782 contains a provision that in an event of default, the Lender can exercise one or more of the following: accelerate indebtedness, assemble collateral, sell the collateral, be placed as a mortgagee in possession, collect revenues and apply accounts, obtain deficiency for any remaining indebtedness, and other rights and remedies under the Uniform Commercial Code. This note is collateralized by a 2014 and 2016 Ford F450 Ambulance.

The City's direct placement bonds related to business-type activities of \$6,855,000 contain a provision that in the event of default, registered owners of at least 25% may accelerate indebtedness. In the event of default on the City's outstanding GO notes payable related to business-type activities of \$821,000, the Bank may take any relief as permitted by law including suit and any rights and remedies. The City's outstanding notes from direct borrowings related to business-type activities of \$9,658,163 has the following delinquent loan provisions. The City must contact the Agency in writing within 15 days of payment due date. The Agency will then confirm in writing the acceptability of the City's response or take appropriate action. If the City doesn't comply with the above, the Agency shall promptly issue a notice of delinquency which requires a written response within 15 days. Failure to take appropriate action will result in the Agency pursuing the collection of the amounts past due, the outstanding loan balance and the costs incurred.

NOTE 8. RETIREMENT FUND COMMITMENTS

(A) ILLINOIS MUNICIPAL RETIREMENT FUND – REGULAR AND SLEP EMPLOYEES

(i) PLAN DESCRIPTION

The City of Highland's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The City of Highland's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this note. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. This report is available for download at www.imrf.org.

(ii) BENEFITS PROVIDED

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

(iii) EMPLOYEES COVERED BY BENEFIT TERMS

As of December 31, 2023, the following employees were covered by the benefit terms:

	REGULAR PLAN	SLEP PLAN
Retirees and Beneficiaries currently receiving benefits	97	0
Inactive Plan Members entitled to but not yet receiving benefits	70	1
Active Plan Members	95	1
Total	<u>262</u>	<u>2</u>

(iv) CONTRIBUTIONS

(a) REGULAR PLAN

As set by statute, the City's Regular plan members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The City's annual required contribution rate for calendar year 2023 was 6.42%. For the fiscal year ended April 30, 2024, the City contributed \$476,923 to the plan. The City also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

(b) SLEP PLAN

As set by statute, the City's Regular plan members are required to contribute 7.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The City's annual required contribution rate for calendar year 2023 was 19.44%. For the fiscal year ended April 30, 2024, the City contributed \$22,750 to the plan. The City also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

(v) NET PENSION LIABILITY

The City of Highland's net pension liability was measured as of December 31, 2023. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

NOTE 8. RETIREMENT FUND COMMITMENTS (CONTINUED)

The following are the methods and assumptions used to determine total pension liability at December 31, 2023.

Other Information:

¹ *There were no changes in the discount rate used to calculate the Total Pension Liability (TPL), since the December 31, 2022 valuation. Mortality and other demographic assumptions used to determine the TPL were updated after the December 31, 2022 valuation, based on the experience study results published in the January 4, 2024 experience study report for IMRF.*

NOTE 8. RETIREMENT FUND COMMITMENTS (CONTINUED)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2023:

Asset Class	Portfolio Target Percentage	Long-Term Expected Real Rate of Return
Domestic Equity	34.50%	5.00%
International Equity	18.00%	6.35%
Fixed Income	24.50%	4.75%
Real Estate	10.50%	6.30%
Alternative Investments	11.50%	6.05-8.65%
Cash Equivalents	1.00%	3.80%
Total	<u>100%</u>	

(vii) SINGLE DISCOUNT RATE

A Single Discount Rate of 7.25% for both the regular plan and the SLEP plan was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on pension plan investments is 7.25%, the municipal bond rate is 3.77%, and the resulting single discount rate is 7.25%.

(B) POLICE PENSION

(i) PLAN ADMINISTRATION

Police sworn personnel are covered by the Police Pension Plan which is a defined benefit single employer pension plan. Although this is a single employer pension plan, the defined benefits and employee and employer contributions level are governed by Illinois Compiled Statutes (Chapter 40 ILCS 5/3) and may be amended only by the Illinois Legislature. The City accounts for the plan as a pension trust fund. The City does not separately issue a financial report for the police pension plan.

The plan is governed by a five-member Board of Trustees. Two members of the board are appointed by the City, two are active members of the police department elected by the membership, and one is a retired member of the police department elected by the membership.

At April 30, 2024, the Police Pension Plan membership consisted of:

Inactive Plan Members and Beneficiaries Currently Receiving Benefits	16
Inactive Plan Members Entitled to but Not Yet Receiving Benefits	5
Active Plan Members	<u>17</u>
Total	<u>38</u>

(ii) BENEFITS PROVIDED

The Plan provides retirement, disability, death, and termination benefits. The Police Pension Plan has two tiers. Police officers hired prior to January 1, 2011 are eligible for Tier 1. Police officers hired on or after January 1, 2011 are eligible for Tier 2.

CITY OF HIGHLAND, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED APRIL 30, 2024

NOTE 8. RETIREMENT FUND COMMITMENTS (CONTINUED)

Under Tier 1, a police officer age 50 or more with 20 or more years of creditable service shall receive a pension of one-half of the salary attached to the rank held by the officer at the date of retirement. The pension shall be increased by 2.5% of such salary for each additional year of service over 20 years of service through 30 years of service, to a maximum of 75% of such salary. The minimum monthly benefit is \$1,000 per month. The monthly benefit shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3% of the original pension, and 3% compounded annually thereafter. Those that retire prior to age 55 receive an increase of 1/12 of 3% for each full month from benefit commencement until age 55 is reached.

Under Tier 2, a police officer age 55 or more with 10 or more years of creditable service shall receive a pension of 2.5% per year of service times the average salary for the eight consecutive years prior to retirement times the number of years of service. The maximum benefit is 75% of average salary. An annual cost-of-living adjustment is calculated each January 1st. The increase is equal to 3% per year or one-half of the annual unadjusted percentage increase in the consumer price index-u for the 12 months ending with the September preceding each November 1st, whichever is less, of the original pension after the attainment of age 60 or first anniversary of pension state date, whichever is later.

Officers totally and permanently disabled as determined by the Board of Trustees are eligible to receive a disability benefit. Officers disabled in the performance of an act of duty are entitled to 65% of the salary attached to the rank held on the date of service and the monthly retirement pension that the member is entitled to receive if he or she retired immediately. If the disability occurs while the officer is not in performance of an act of duty, the officer is entitled to a disability benefit of 50% of the salary attached to the rank on the last day of service.

If an officer dies in the line of service, the named beneficiary is entitled to a death benefit equal to 100% of the officer's salary attached to the rank held by the officer on the last day of service. For a non-service death, the beneficiary would receive a maximum of 50% of the salary attached to the rank held by the officer on the last day of service, and the monthly retirement pension earned by the deceased officer at the time of death, regardless of whether death occurs before or after age 50. For non-service deaths with less than 10 years of service, a refund of member contributions is provided.

After termination of service, an officer with less than 10 years of service will receive a refund of their contributions. If the officer has 10 or more years of service, the officer will receive either a refund of their contributions, or the termination benefit, payable upon reaching age 60 provided contributions are not withdrawn. The termination benefit is 2.50% of the annual salary held in the year prior to termination times years of creditable service.

(iii) CONTRIBUTIONS

Plan members are required to contribute 9.91% of their base salary to the Police Pension Plan. The City is required to contribute the remaining amounts necessary to finance the plan as actuarially determined by an enrolled actuary.

(iv) INVESTMENT POLICY

Pursuant to Chapter 40 ILCS 5/22B, the investments are held by the Police Officers' Pension Investment Fund ("IPOPIF"). IPOPIF is authorized to invest in all investments allowed by Illinois Compiled Statutes (ILCS). The IPOPIF shall not be subject to any of the limitations applicable to investments of pension fund assets currently held by the transferor pension funds under Sections 1-113.1 through 1-113.12 or Article 4 of the Illinois Pension Code.

For the year ended April 30, 2023, the annual money-weighted rate of return on plan investments, net of pension plan investment expense, was 4.28%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

(vii) DISCOUNT RATE

The discount rate used to measure the total pension liability was 6.80%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that sponsor contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Pension Plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

(viii) SENSITIVITY OF THE NET PENSION LIABILITY TO CHANGES IN THE DISCOUNT RATE

The following presents the plan's net pension liability, calculated using a Single Discount Rate of 6.80%, as well as what the plan's net pension liability would be if it were calculated using a Single Discount Rate that is 1% lower or 1% higher:

	1% Decrease	Current Discount Rate	1% Increase

NOTE 10. OTHER POST EMPLOYMENT BENEFITS

The City of Highland's Retiree Health Care Plan (Plan) is a single-employer defined benefit post-employment health care plan that covers eligible retired employees of the City. The City allows for retired employees to purchase medical, pharmacy, and dental insurance through the City's single employer group plans. This constitutes an other post employment benefit (OPEB) provided to the employees. These benefits are governed by the City Council and can be amended through the City's personnel manual and union contracts. For purposes of applying Paragraph 4 under Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, the Plan does not meet the requirements for an OPEB plan administered through a trust and does not issue a stand-alone financial report.

(i) Employees Covered by Benefit Terms

At April 30, 2024, the following employees were covered by the benefit terms:

Inactive Plan Members or Beneficiaries Currently Receiving Benefits	12
Inactive Plan Members Entitled to but not yet Receiving Benefits	0
Active Plan Members	116
	<u>128</u>

(ii) BENEFITS PROVIDED

Retirees and their spouses or surviving spouses are eligible to purchase medical, pharmacy and dental benefits at the City's group rates. Although retirees pay 100% for dental and vision coverage, and the majority of the cost for medical coverage, the City in effect also subsidizes a portion of the insurance costs by allowing them to remain on the group plan. Eligible employees must be at least 55 years of age with 20 years of service or 60 years of age with 8 years of service for all departments other than the police. Police department retirees must be 50 years of age with 20 years of service or 60 years of age with 8 years of service. Retirees and their spouses may only receive these benefits until reaching the age of 65.

(iii) NET OPEB LIABILITY

The measurement period for the OPEB expense was May 1, 2023 to April 30, 2024. The reporting period is May 1, 2023 through April 30, 2024. The City's Total OPEB Liability was measured as of April 30, 2024.

The components of the net OPEB liability of the plan at April 30, 2024, calculated in accordance with GASB Statement No. 75 were as follows:

Total OPEB Liability	\$ 1,785,948
Plan Fiduciary Net Position	<u>0</u>
Net OPEB Liability	<u>\$ 1,785,948</u>

Plan fiduciary net position as a percentage of the total OPEB liability is 0%.

See the schedule of changes in total OPEB liability and related ratios in the required supplementary information for additional information related to the funded status of the plan.

For the year ended April 30, 2024, the City will recognize OPEB income of \$408,904.

(iv) ACTUARIAL ASSUMPTIONS

The Total OPEB Liability was determined by an actuarial valuation as of April 30, 2022, updated to April 30, 2024, using the following actuarial assumptions:

Price Inflation	2.50%
Annual Wage Increases	2.75%
Discount Rate	4.42%

For healthy pre-retirement lives: Pub-2010, amount-weighted, below-median income, general, employee, male and female tables. For healthy post-retirement lives: Pub-2010, amount-weighted, below-median income, general, retiree, male (adjusted 106%) and female (adjusted 105%) tables. For disabled retirement lives: Pub-2010, amount-weighted, general, disabled retiree, male and female tables.

(v) DISCOUNT RATE

Given the City's decision not to fund the program, all future benefit payments were discounted using a high-quality municipal bond rate of 4.42%. The high-quality municipal bond rate was based on the week closest but not later than the measurement date of the S&P Municipal Bond 20 Year High Grade Rate Index as published by S&P Dow Jones Indices. The S&P Municipal 20 Year High Grade Rate Index consists of bonds in the S&P Municipal Bond Index with a maturity of 20 years. Eligible bonds must be rated at least AA/Aa by Standard and Poor's Ratings Services, Aa2 by Moody's or AA by Fitch. If there are multiple ratings, the lowest rating is used.

(vi) CHANGES IN TOTAL OPEB LIABILITY

NOTE 11. TAX ABATEMENTS

The City enters into property tax abatement agreements with local businesses under the Illinois Tax Increment Allocation Redevelopment Act. Under this act, localities may grant property tax abatements for the purpose of rehabilitation of blighted or conservation areas. The abatements may be granted to any business located within the TIF District boundaries which incur qualified redevelopment costs. A typical agreement will reimburse a developer's qualified costs up to 100% of the annual property tax increment. For the fiscal year ended April 30, 2024, the City abated property taxes totaling \$89,314

The City entered into sales tax rebate agreements with multiple businesses within the City's business district as an incentive for the businesses to complete improvements to their businesses. These businesses receive sales tax rebates of up to 100% of the 1% city sales tax increment, to be paid annually. For the fiscal year ended April 30, 2024, the City abated sales taxes totaling \$17,025 under these agreements.

The City entered into property tax abatement agreements with multiple businesses within the City's business district as an incentive for the businesses to complete improvements to the buildings within the district. These agreements reimburse the businesses up to 100% of the City's portion of the ad valorem tax increment generated on the increase in equalized assessed value for the improved property. For the fiscal year ended April 30, 2024, the City abated property taxes totaling \$6,103 under these agreements.

CITY OF HIGHLAND, ILLINOIS
REQUIRED SUPPLEMENTARY INFORMATION
NOTES TO SCHEDULE "1"
APRIL 30, 2024

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

1. During the first quarter of the calendar year, the City Manager submits to the City Council a proposed budget for the year commencing May 1 of that year. Expenditures, interest, payroll, claims, and compensated absences are budgeted to the extent anticipated to be paid in cash.
2. Public hearings are conducted to obtain taxpayer comments.
3. On April 17, 2023, the budget ordinance was legally enacted. The budget ordinance was legally amended on December 18, 2023 and April 15, 2024.
4. The operating budget for the major governmental and special revenue funds is reflected in the financial statements.
5. The formal budget is adopted and used as a management control device during the year for the general fund, special revenue funds, capital project funds, debt service funds, enterprise funds and pension and nonexpendable trust funds. Budgetary control is at the total individual fund level and is alternatively achieved through bond indenture provisions for the debt service funds. This allows the City Manager and the finance department to transfer budgeted amounts within departments; however, any revisions that alter the total expenditures/expenses of any individual fund, by more than 10% must be approved by the City Council.
6. The City files with the county an annual budget ordinance which is the legally required document that levies a tax on the owners of property located in the City. The City budgets for expenditures to the extent anticipated to be paid in cash. All appropriations lapse at year end. The budget is the legal document that limits the spending capacity by fund of the City for its services and operations.

As of April 30, 2024, the City's expenses exceeded budget in the following fund. The amount does account for the change in accruals, debt proceeds, and the transfers to other funds or reserve accounts.

NOTES TO SCHEDULE OF PENSION CONTRIBUTIONS
SUMMARY OF ACTUARIAL METHODS AND ASSUMPTIONS USED IN
THE CALCULATION OF THE 2023 CONTRIBUTION RATE*

VALUATION DATE

Notes: Actuarially determined contribution rates are calculated as of December 31 each year, which is 12 months prior to the beginning of the fiscal year in which contributions are reported.

METHODS AND ASSUMPTIONS USED TO DETERMINE 2023 CONTRIBUTION RATES:

Actuarial Cost Method: Aggregate Entry Age Normal
Amortization Method: Level Percentage of Payroll, Closed
Remaining Amortization Period: Non-Taxing bodies: 10-year rolling period.
Taxing bodies (Regular, SLEP and ECO groups): 20-year closed period
Early Retirement Incentive Plan liabilities: a period up to 10 years selected by the Employer upon adoption of ERI.
SLEP supplemental liabilities attributable to Public Act 94-712 were financed over 15 years for most employers (five employers were financed over 16 years; one employer was financed over 17 years; two employers were financed over 18 years; one employer was financed over 21 years; three employers were financed over 24 years; four employers were financed 25 years and one employer was financed over 26 years).
Asset Valuation Method: 5-Year smoothed market; 20% corridor
Wage Growth: 2.75%
Price Inflation: 2.25%
Salary Increases: 2.75% to 13.75% including inflation
Investment Rate of Return: 7.25%
Retirement Age: Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2020 valuation pursuant to an experience study of the period 2017-2019.
Mortality: For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

SUMMARY OF ACTUARIAL METHODS AND ASSUMPTIONS
USED IN THE CALCULATION OF THE 2024 OPEB LIABILITY

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Valuation Date	May 1, 2022
Measurement Date	April 30, 2024
Fiscal Year End	April 30, 2024
Actuarial Cost Method:	Individual Entry Age Normal as a level percentage of payroll
Discount Rate:	4.16% as of measurement period ending April 30, 2023 4.42% as of measurement period ending April 30, 2024
Annual Wage Increases:	2.75%
Price Inflation:	2.50%
Healthcare Reform:	Aspects of the Affordable Care Act were included in the valuation only to the extent they have already been implemented in the plan.

Annual Healthcare Trend:	Years after Valuation	Gross Claims
	1	7.50%
	2	7.25%
	3	7.00%
	4	6.75%
	5	6.50%
	6	6.25%
	7	6.00%
	8	5.75%
	9	5.50%
	10	5.25%
	11	5.00%
	12	4.75%
	13+	4.50%

Annual Per-Capita Claims Costs: Starting per capita costs were developed using the fully-insured premium rates provided by the insurer as of the valuation date. These rates were then adjusted for differences in plan design and disaggregated into age-specific starting costs using average ages of participants and morbidity assumptions to reflect the relationship between costs and increase age. Fixed costs and fees are included in these costs to the extent the insurer or third-party administrator has already incorporated them in the based premium rates.

Age	Plan			Future Retirees
	Base	Buy-Up	H.S.A.	
40	\$ 7,427	\$ 7,269	\$ 6,005	\$ 6,953

64	16,958	16,598	13,711	15,876

Participation: *Future Retirees* : 80% of future retirees are assumed to elect coverage at retirement for themselves and their spouse, if married. 40% of participating retirees are assumed to elect the Base plan, 30% the Buy-Up plan, and 30% the H.S.A. plan. It is assumed that no one will opt in or opt out of coverage once initial retirement election is made.

Current Retirees : Based on current coverage election. It is assumed that no one will opt in or opt out of coverage once initial retirement election is made.

Marital Status: *Future Retirees* : 50% of participating retirees are assumed to be married at retirement.

Current Retirees : Based on current coverage election.

Spouse Age: Male spouses are assumed to be 3 years older, and female spouses are assumed to be 3 years younger. Actual age is used for spouses of current retirees, if provided.

Mortality Rate: *Pre-Retirement*: Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female tables

Healthy Retirees: Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables

Disabled Retirees: Pub-2010, Amount-Weighted, General, Disabled Retiree, Male and Female tables

The mortality assumptions include a margin for future mortality improvements using Scale MP-2021 projected fully-generationally from the central year of data, 2010.

CITY OF HIGHLAND, ILLINOIS
FOR THE YEAR ENDED APRIL 30, 2024

SCHEDULE OF FINDINGS

FINDINGS – FINANCIAL STATEMENTS AUDIT

Significant Deficiencies:

2024-1:

Condition: The City does not have anyone on staff that is adequately trained or possesses the necessary knowledge that enables the preparation of the City's financial statements and the related disclosures in accordance with Generally Accepted Accounting Principles.

Criteria: Generally accepted accounting principles determine proper presentation of your assets, liabilities, revenues, and expenses and the related disclosures. This is deemed necessary so that misstatements will not occur in the financial statements.

Cause: The City of Highland does not have personnel who are adequately trained to ensure the annual financial statements are prepared in accordance with generally accepted accounting principles.

Effect: The possibility exists that the financial statements are not properly prepared to accurately report financial activity.

Recommendation: Management should consider the costs and benefits of hiring additional expertise or training accounting staff to ensure the financial statements and related disclosures are prepared in accordance with generally accepted accounting principles.

Response: Management has considered the recommendation but feels it does not have the necessary resources to expend funds to address this finding. Management will continue to rely on the assistance of the auditor in the preparation of the financial statements and related disclosures in accordance with generally accepted accounting principles. Management will continue to oversee and approve the financial statements and related disclosures and take responsibility for them.

2024-2:

Condition: The City did not perform the bank reconciliations during the fiscal year.

Criteria: A reconciliation between the general ledger and the bank balance should be prepared to ensure that the recording of transactions is accurate and proper.

Cause: City personnel did not perform monthly bank reconciliations in a timely manner due to staffing limitations.

Effect: The possibility exists that errors or other problems might not be recognized and resolved in a timely manner.

Recommendation: It is recommended that the City reconcile the general ledger to the bank balance on a monthly basis to ensure that all transactions have been appropriately accounted for and to ensure accurate financial reporting.

Response: Management has considered the recommendation and is looking into adopting procedures to ensure the bank reconciliations are performed in a timely manner.

CITY OF HIGHLAND, ILLINOIS
FOR THE YEAR ENDED APRIL 30, 2024

SCHEDULE OF FINDINGS (CONTINUED)

FINDINGS – FINANCIAL STATEMENT AUDIT (CONTINUED)

Compliance and Other Matters:

2024-3:

Condition: The City had multiple funds with expenditures in excess of its approved budget.

Criteria: The City is required to spend within its legal budgetary authority.

Cause: Additional expenditures were incurred that were not originally budgeted for. Amendments to the budget were not made to encompass these additional expenditures.

Effect: The City expended funds in excess of its legal budgetary authority.

Recommendation: The City should adopt a reasonable budget and amend the budget as necessary in order to stay compliant.

Response: Management understands the importance of spending within its legal budgetary authority. In the future, the City will amend the budget as necessary in order to stay compliant.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

FINDINGS – FINANCIAL STATEMENTS AUDIT

Significant Deficiencies:

2023-1:

Condition: The City does not have anyone on staff that is adequately trained or possesses the necessary knowledge that enables the preparation of the City's financial statements, schedule of expenditures of federal awards, and the related disclosures in accordance with Generally Accepted Accounting Principles.

Criteria: Generally accepted accounting principles determine proper presentation of your assets, liabilities, revenues, and expenses and the related disclosures. This is deemed necessary so that misstatements will not occur in the financial statements.

Cause: The City of Highland does not have personnel who are adequately trained to ensure the annual financial statements and schedule of expenditures of federal awards are prepared in accordance with generally accepted accounting principles.

Effect: The possibility exists that the financial statements are not properly prepared to accurately report financial activity and the possibility that the schedule of expenditures of federal awards is not accurate or complete.

Recommendation: Management should consider the costs and benefits of hiring additional expertise or training accounting staff to ensure the financial statements, schedule of expenditures of federal awards, and related disclosures are prepared in accordance with generally accepted accounting principles.

Response: Management has considered the recommendation but feels it does not have the necessary resources to expend funds to address this finding. Management will continue to rely on the assistance of the auditor in the preparation of the financial statements, schedule of federal awards, and related disclosures in accordance with generally accepted accounting principles. Management will continue to oversee and approve the financial statements, schedule of federal awards, and related disclosures and take responsibility for them.
