General Information

Water Service – The City shall provide water service to the property line from a point nearest to the water main according to City Ordinances. All material installed by the City in accordance with this contract shall remain the property of the City. All work to be done by a State of Illinois licensed plumber.

Sewer Service – All work will be done by a licensed plumber or under the supervision and subject to the approval of the Water & Sewer Distribution Division or an authorized sewer inspector, and in all respects in full compliance with the terms and provisions of the following Ordinance of the City of Highland. All excavations required for the installation of a building sewer shall be open trench work unless otherwise approved by the Water & Sewer Distribution Division. Pipe laying and backfill shall be performed in accordance with ASTM specification (C-12) except that no backfill shall be placed until the work has been inspected. In the event that backfill is placed prior to inspection, the same shall be removed immediately at the contractor's expense. The applicant for the permit shall notify the Public Works Department when the sewer is ready for inspection and connection to the public sewer. The connection shall be made under the supervision of the Water & Sewer Distribution Division.

Electrical Service – The applicant agrees that the City has the right to specify the location of where the electrical meter base is to be located and to specify the total amount of service conductor to be utilized for the project. The applicant agrees that should they desire to locate the electrical meter base in a different location than where the city requires, the applicant will be responsible for all the cost differences associated with their location versus the City's required location. All material installed by the City in accordance with this contract shall remain the property of the City. All electrical work requires a release from the electrical inspector prior to requesting connection to the City of Highland electrical services for the above location.

Sump/Storm Sewer – All material installed by the contractor/owner shall be in accordance with City regulations.

Inspection Information

Water/ Sewer Service – Contractor must notify Public Works at least 24 hours before said inspection is to take place. (618-654-6823)

Electrical Service – Contractor must notify Light and Power to submit a work order request for electrical hook-up. The department shall have at least 72 hours after work order submittal to add the project into the department job schedule. Timely completion of electrical hook-up will be dependent upon department work load, employee availability, ground conditions and weather conditions. (618-654-7511)

Sump/Storm Sewer – Contractor must notify Public Works at least 24 hours before said inspection is to take place. (618-654-6823)

Construction of Driveways – Contractor must notify Public Works at least 24 hours before said inspection is to take place. (618-654-6823)
