Comments:

This form is for the City of Highland to acknowledge your site plan in case of a City utility emergency. The City of Highland does not locate property lines and recommends that you have your property surveyed prior to installation in order to avoid civil disputes.

Please complete site plan on next page. Draw structures/proposed structures, distances from house, any accessory structures, and property lines.

This image shows a full page of blank graph paper. The grid consists of small, equal-sized squares formed by thin black lines. There are no margins, text, or other markings on the page.
